Star Wars Rebel Storm Booster Pack (7 Random Miniatures)

Customer Reviews

Star Wars "Rebel Storm" is the very first set for the Star Wars miniatures game. There are 60 different pre-painted figures in the set, and each booster includes seven random figures (including one rare OR very rare figure). The best thing about this set is that the figures are based almost exclusively on the original trilogy. Thus, you will have seen all but a couple of them in those movies. The game itself very fun (definitely one of my favorites). It is similar to the D&D minis game in many ways, so if you like that game, you are sure to also like this game as well. But there are also enough differences to the two games to keep it interesting. Further, there are enough different figures in this set (each with its own stats, special abilities, commander effects, and/or force points) that you will never have to play the same game twice. Several expansion sets have also been released to add even more variety to the game. Finally, the minis can also be used with the Star Wars RPG (though Unlike the D&D minis game, the stats cards for the Star Wars minis game do not include info for the RPG version of the game -- but many of these stats are available elsewhere). In sum, I love this game, and if you love Star Wars and/or gaming, I think it's definitely worth a try. Hope this helps! ADDENDUM: (Please note that I include this addendum at the end of all my Star Wars minis reviews, so if you've read it before, there is no need to read it again.) If you want to play the Star Wars minis game as it was designed to be played, it is best to have at least one starter (each starter comes with game instructions, a map, a D20, terrain tiles that are very helpful and add great variety to the game, and more).
