Best Sellers Rank: #991,162 in Books (See Top 100 in Books) #88 in [Books > Religion & Spirituality > New Age & Spirituality > Divination > Runes](#)

## Customer Reviews

The Runes tell stories if you can hear them speak, or find that certain spark deep within you. The Book of Runes is simple, complete, sturdy, and very portable, first written 34 years ago, by a man born in 1932. After a few searches, I found a book through that appeared to have a good chance of covering what I wanted to learn, so that I could reference the Runes for myself and for anyone who wanted to know things about the Runes: first found on the Isle of Man, came before Old English, a style of writing. I would like to briefly quote the work, because the quote echoes me and adds quite a bit of quality to my sentiments about the Runes, also, as an academics tutor, from age 15, now nearly a senior citizen, I have realized that knowing something has many rich dimensions: "We are all teachers, and what we teach is what we need to learn, and so we teach it, over and over again." - a principle of 'A Course in Miracles.' (pg 136) Blum has studied the Runes and written from inspiration, as one can see from page 136-137, which I can only pull a few key words from to communicate the originality and style of the author who wrote it: "Almost five months after establishing the order and meaning of the Runes, while driving south along the Pacific Coast Highway....I had a strong feeling...I suddenly understood...Without bothering to pull off the road, I opened my Rune notes and..." Well, he got pulled over for doing 72 mph, never-mind that he was writing the whole time! He (the author) said, "I didn't even try to explain." This is someone to learn from, a) He's presented an amazing, holistic interpretive solution which answers the call of the mysterious and ancient Runes. He's interesting, inspired, and spiritual, yet an educated author and

scholar.
