Pretty much all of us would like to have better sexual experiences with our partners and this book by Jasmine Burdak explains how. I thought this would be a book about sexual positions but I was

wrong. It is more about gaining a further connection with your mate, taking your relationship to the next level, a spiritual level and treating sex as the sacred act of bonding that it really is. Tantric sex has been around for 5000 years and dates back to ancient Hindu teachings. In Tantra, an orgasm is an afterthought and is more about sensuality and shared energy. Breathing is important as is eye contact and meditation. The author suggests that we engage all the senses, sight, touch, sound, smell and taste. Kissing is one of the elements that we should not forget.

How can we rediscover the joys of love and sex that grow rather than diminish over time? Jasmine Burdak found that the ancient practice of Tantra had the effect of enhancing intimacy and deepening love. In this book she has adapted Tantra for modern Western lovers in a practical, sympathetic way. I found this book to be kind of like a feminist (though not politically oriented) view of sex, even though I haven't really read much feminist critiques of sex. But, in general, the ideas presented in this book lead to, as well as come from an equal relationship; in this author's view sex is really a meeting of equals, or it ends up being unsatisfactory or at least unmindful for both, in the long run. This book is so healing and full of love. The way it speaks about sex is what sex is meant to be. Changes everything, makes you want to preach. A must-read for anyone interested in becoming more loving, healthy and integrated with his/her partner.

Good book with important information about this subject like Sex, it is not only about sex but in a tantric way that is a different way to reach the pleasure and health for the body. This 26 ways will show you how to get the ultimate benefit of sex and to be a happier person. I really enjoyed this book. I learned too much about tantric sex very important to be a good lover.

Wow! Is the first word that I could think of about this book. This book would really be helpful for every couple or marriage to make their sex life have spark. There are also helpful insights on what to do in your relationship to stay stronger.

I loved this book! It is perfect for couples that have been together for a long time, and want to spice things up in bed again! This guide is filled with amazing tips, that will help you and your partner enjoy sex in new fun ways! I look forward to applying the things I just learned with my wife! Great guide!
