In Conflict And Order: Understanding Society (13th Edition)

Synopsis

Viewing our society from a conflict perspective. Â This introductory text, written from a conflict perspective, emphasizes four themes: diversity, the struggle by the powerless to achieve social justice, the changing economy, and globalization. In *Conflict and Order: Understanding Society* studies the forces that lead to stability and change in society and asks: Who benefits from the existing social arrangements, and who does not? How are human beings shaped by society? What are the forces that maintain social stability, produce social inequality, and resist social change?

Teaching & Learning Experience This program will provide a better teaching and learning experienceâ for you and your students. Hereâ TM's how: Improve Critical Thinking Students are encouraged to critically evaluate social sources of behavior and conflict. Engage Students The author provides examples of those who have been empowered to achieve positive social change. Explore Theory A conflict perspective is used to examine social structures. Understand Diversity This text examines economic global transformations in the U.S., the struggle to achieve social justice, and the inclusion of race, class, and gender. Support Instructors Instructorâ TM's Manual & Test Bank, and PowerPoint presentations are available. Â Â

Customer Reviews

I was assigned this book for my intro to sociology class and I find it to be a lot of blustering with inaccurate information given the price. The book discusses the dualities of conflict and order in society, though you only need to read a few chapters in to realize the book is nearly completely

biased to the conflict paradigm. They also like to reference themselves throughout the book but on certain "historical facts" and "observations" there are no citations as to where they obtained this erroneous information. Some of the claims the book makes are rather blatant and sometimes incorrect. My personal favorite was the political system in the United States is fair to everyone. Seriously? If you have any knowledge of American history and/or politics, I think you will be disgusted you wasted \$122.00 to buy this.

There are many interesting theories, but some of the examples that are used are somewhat doubtful. It is an okay book after all.

This book has many good articles for one to think about and discuss. I would recommend this book as a college reading book.

The book arrived on time, it does show clear signs of wear but it works fine.

I love the book! And conditions were good!

Needed it for school. It's helpful.

Didn't know that "good used condition" meant an entire chapter loose from the book. Other than that the book is fine for my college sociology class.

Good quality and shipped fast
