I read many true paranormal books. I have experienced, studied, and researched locations and stories for many years. I found this book very believable and recommend it to all like readers who are curious of others personal experiences, to help understand these experiences and to cope with the possibilities that....There truly is another dimension not yet explainable.

I really enjoyed this book but I got so spooked that I had to stop reading it at night and finish it in broad daylight. I recommend you don't read this at night, especially by yourself, unless you don't want much sleep. It's not a long story but the method of telling it was very effective. The author captures interviews of the people who experienced the terrifying haunting first hand, especially the couple who bought the house. If it's true I feel badly for what the couple went through even though I didn't think Sarah the wife was too nice by the end of the book because of how quickly she gave up on her marriage to poor John! Overall a very good scary read!

I made the mistake of reading this in one go before bed last night - it's a truly enjoyable read, especially for those who enjoy authentic ghost stories. Because these are transcripts of the actual interviews with the people involved, the Welsh expressions and way of speaking made it completely believable, and it is one of the most convincing and frightening accounts I have read.

If I read a book longer than 100 pages in one read, then it's a good book. The story flows well, it's pretty much free from the usual grammatical errors expected from most amateur Kindle authors, but MOST importantly: I believed the story. Heck, what I read had me praying prayers of protection before I was even done, just saying. Anyone who wants to be both entertained and educated about the paranormal would do well to read this one. No disappointments here, get the book.

Wow! What an wonderful book! I absolutely could not put it down. Of course, a ton of book reviewers say they couldn't put this or that book down (and although I rarely find that I really have all

that much trouble to put a lot of books down), *A Most Haunted House*, by G.L. Davies, was definitely one of those rare instances where my eyes were absolutely, totally and completely riveted to the printed page from beginning to end. There are no chapters to speak of in the book, and the author really only makes an appearance at the beginning and the end, so the vast majority of the story is told in the first person narrative, by the couple who lived in that most haunted house referred to in the title. There is absolutely no need for chapters or other niceties however, as the good scary stuff kicks in almost immediately, the narrative flows effortlessly, and best of all, the eerie momentum keeps the reader turning the pages until the very last spooky period at the end of the very last spooky sentence. But is it really all that scary? Hmm. Well, I read an awful lot of ghost stories, so I wouldn't say it's the most frightening book about the paranormal that I've personally ever encountered. But there are definitely some genuinely creepy moments, especially near the end. So don't say I didn't warn ya! All in all, this really is a wonderfully chilling true ghost story, and I would highly recommend it to almost anyone. Well... not to most arrogant, prejudiced "skeptic" types, of course. And it's definitely not a good book for young children. Or anyone who is easily frightened, for that matter. But most inquisitive readers with an open mind couldn't help but be left pondering some very deep questions about what really happens to human consciousness after death, after reading a truly haunting tale like *A Most Haunted House*. Great book! And surely, one that will not soon be forgotten. And really... how can anyone ask for much more from any book?

This is an OUTSTANDING book and a perfect example of a REAL HAUNTING as I've ever read. G.L. Davies, the Author and paranormal researcher, was unable to do a physical investigation of the house (read the book as to why) but was able to interview all of the people involved in detail. Things go in this book, as they really do in most cases of hauntings. Most people who live in "Haunted Houses" don't like to call the newspapers and media, but to keep things quiet. Some people think they are crazy, the activity devalues the home (in most cases,) and they just don't know how to make contacts to really help them. This story takes place in the Welsh town of Haverford West and is an example of what people go through living in a Haunted House. Among my many interests and work, I have specialized in Ghosts and Hauntings since 1971, appearing on several TV Shows in the late 80's - early 90's. There are few if any good examples of what it's like, and this is the best I've found. Outside of investigating one, where you have to leave out the examples given here.

Usually I don't care for books with this type of format where two characters describe the same events at two different times and then the author intertwines both points of view by going back and

forth between the two. Each time the stories are switched the character's name is there to state who's talking, leaving no room for confusion; but I have to admit that "A Most Haunted House" made it work. The story was not far fetched, in my opinion, and was easily believable as long as you kept an open mind. I don't want to give anything away. I can only suggest that any person with even a hint of interest in the paranormal should read this and decide for yourself whether these two people, once a very happy husband and wife, really experienced these haunting events they described. Even if you are a sceptic check this short story out; you may just change your mind!! I can't wait to dive into G L Davies next haunting tale, "Ghost Sex The Violation." It sounds like an even more hands on haunting than the last! The authors many years of experience truly comes out in his work. All-in-all great read!!!
