It's jut the emerald tablet, it's like 30 pages, it's got a few different transliterations. It's useful to have if you want a nice little copy of it. But all of the transliterations can be found online, in fact, all of them and more are on the wikipedia article for the emerald tablet of hermes.

It's a good text, but I thought is was going to be more of the actual text of the Emerald Tablets, not just several people's (well-qualified people, however) interpretations and variants of one or two passages. I just didn't read the description thoroughly enough.

Good book, it's several translations of the same text. I read the book in one sitting and will probably pick it up again in the future.

Amazing book. It came before all religions.

Fast delivery, good price and quality products as expected. Taxes are little to high.

small book-but this was purchased as a replacement for one that had been lost.

This is a very interesting, esoteric book.

This book is all that I was expecting.
