Banewolf (Dark Siren Book 2)

Synopsis

New enemies are made. New allies must be forged. Kali is beginning to regain her memories. In doing so, she discovers old secrets and betrayals that threaten to unravel her present and shake the foundation for Rhane's belief in her innocence. While her maturing abilities present unique challenges, a bigger problem arises when Kali learns her ex-boyfriend has made a misguided deal with the enemy in order to win her back—a decision that may ultimately cost him his humanity. Keeping Kali safe has become a full time job for Rhane. And struggling to gain control of the immortal Banewolf isn't making that task any easier. The power to eliminate the growing threat against Kali lies at Rhane's fingertips, but using it means risking his friends to the insatiable blood lust of a monster. So Rhane is forced to forge a shaky alliance with creatures he has sworn to destroy. Despite these new allies, the danger pressing on their borders intensifies, culminating in a heartbreaking and shocking finale. The strength of the bond between young and ancient lovers will be tested and if Kali and Rhane are to survive, they must find a way to be unbreakable.

Customer Reviews

This is the second in the series I have read. I can honestly say I love them. Can't wait to get book #3 Blood Chained to see what is going to happen next. And to see if what I think about Bailey is correct. Kalista & Rhane have to go through so much. Their love, through hard times. Totally love the characters, they are strong & well thought out. The plot is awesome. Love the different creatures. I would advise anyone to read this series. But do go in order, more fun that way.

I enjoyed the continuation of the Dark Siren world. The development of the characters was well done and really made me feel engaged with them. The writing is still a bit choppy and parts of the story feel like they dropped in out of no where. However, I really do enjoy the unique paranormal world author Eden Ashley has created. And the flow of Banewolf was smoother than Dark Siren (book 1). My hope is that the flow will continue to improve in the upcoming Blood Chained (book 3). I'm looking forward to answers in Blood Chained! Just in case you are discouraged by this review, keep in mind that the book series has kept me coming back for 2 books with a pre-order in place for book 3.

****I've received a copy of this book in exchange for an honest review**** Although I'm not a big fan of YA I'm a huge fan of everything fantasy related AND sirens so I had many expectations when I started reading this series. I can honestly say Eden Ashley didn't disappoint me. I don't like reading spoilers so I don't write them either, which doesn't mean I can't review a story. First of all, potential readers must keep in mind this is a story told in installments, of which Banewolf is the second installment. That being said, it's obvious one needs to read book 1 for a better understanding of the background of the characters. Moreover, even though the readers get more information in this second part and many questions raised in book 1 are answered, they shouldn't expect to get the whole picture at this point and they should expect more mysteries to unfold. That's actually a given in this kind of story. However, I don't mean to say the book is predictable. On the contrary, it's full of surprises, which contribute to the enjoyment of the story and to the fact you won't want to put the book down. That's why I recommend you start reading the series during Spring break to avoid losing precious sleeping time. LOL

Rarely I read paranormal books but I was attracted by the cover and the blurb, I am not left at all disappointed. It was a pleasant read from cover to cover. It's very exciting, full of twists, mystery and action. Kali is in search of herself, is completely unaware of her past and must also learn to

know and use her powers. Rhane tries to protect her and help her remember. Kali begins to remember their previous life together, and particularly the agreement Rhane didThe characters are amazing and well developed. Kali is getting stronger, accepts the help of Rhane but always wants to be more independent, rely on their own resources.It's the second book in this series, it's good enough as a standalone, but to better understand the evolution of the characters I recommend to read the series in order.It 's a story that keeps you glued to the pages, with a fast pace and an intriguing plot.For those who love paranormal romances it is a must read.I received an advanced readers copy from the author in exchange for an honest review.

It is a slow beginning but it more than makes up for that with that ending. Man oh man this book is a good one, it sets up for an epic third book with so many secrets left for one to wonder about. Kali and Rhane are back with even more problems than they had in the first book. Kali is learning more about her past which is something I really liked, how you got to see her re-experience her past lives and how they fit together to help her with what was currently going on.I liked also how much Kali trains to get better and stronger instead of sitting around for Rhane and the group to save her, I know that is what they say they are there for, but I also understand Kali not wanting to be weak and wanting to do something for herself. We also learn a little bit more about Rhane and what he is all dealing with that the Banewolf is not all it is cracked up to be.The only thing I keep getting hung up on is that Rhane is so much older than Kali. I know, I know they were lovers in Kali's previous life and age shouldn't matter but she is seventeen, that has to be effecting her judgement some what. Though I will say Rhane is a good guy he could use their past as an excuse to do almost anything he wanted but love doesn't take advantage of stuff like that so it is done well.

This is a great continuation of the first book and unlike many series, doesn't loose anything when compared to book one.Book two gives a much deeper look into Rhane. We learn more about him (which is horribly interesting) and also get a glimpse into what it means for him to be the Banewolf. And it's not necessarily all it's cracked up to be. I gained a much deeper respect for Rhane and came out of the book cheering for him more than before.Kali also gains a nice aspect. Although she's waiting, she doesn't lean back and wait. I love how she dives into training to learn how to protect herself. She's full of spunk and life, and simply easy to sympathize with.The story itself is fast paced and won't let the reader go (which considering the length, isn't good for those of us who like to read interesting books in one sitting.) There's action, tension, twists and turns and everything needed to keep me wondering what was going to happen next. There are still a lot of unanswered

questions, so I'm expecting book 3 to maintain this high level and can't wait to see what it brings. I received a free copy in exchange for an honest review.
