Customer Reviews

Crystals and Healing Stones is a really great introduction to the powers of all natural crystals. My daughters have found a passion for this and I'm just learning. And this book has inspire me to want to learn more!It's informational, well written and offers great insight into the powers with these healing stones.I really enjoyed learning from this book and you will too! Well Done!

As someone who wanted to brush up on crystal use, and as a writing coach, I believe the writing coach won. Each crystal, with chakra, meditation and carrying effects took up less than one page. I could make a proofreading list where I identify several errors in each paragraph. The author seemed to find complicated word choices when a simpler word would work. There were many typos, formatting, spelling, sentence structure issues, repetition and much more. The biggest concern I had was the author gave no distinctive description of the stones. Without using the full page, there was room to describe the stone and characteristics.I gave it 2 stars as it did meet the quality of a "Beginner's Guide"

Great read about crystals as well as the different healing crystal ability. This book has been very helpful and gives a great introduction to crystal healing.I find this book Very informative and a must

read for all who wants to know about crystals and their healing powers. A lot of information packed into this book I would highly recommend it to anyone interested with crystals healing.

This is an Awesome Collection Book of Crystals. For me, this is an Amazing Book. Actually, this is the first time I've read about Crystals, and I'm actually curious about it, because one of my friends bring crystals everyday, and I'm wondering why she does that. In this book, I've come to realize the powers of these crystals. I have now a wonderful knowledge about crystals. Thanks to Michele Gilbert for this wonderful book. Michele has done an amazing job in creating these collections of Crystals, telling us what those crystals mean, how it can help us with our daily lives, and how we can dispel negative energies around us. Among all the crystals that are included in the book, these are the ones I would like to try:- ites - because it's cleansing mental worry and troubles, and it builds better friendships- Jade - because Michele says that this crystal, is for 'love'- Jasper - because it can make you be calm, relax, and safe. There are so many crystals that you can choose from in this book, whether you want leadership, for travel, courage, abundance, and many more, there is a right crystal for you. I highly recommend this book to everyone who wants to know more about crystals, what they can do to our lives, and how it can give us positive energies and dispel the negative one. With that, I'd highly give Michele Gilbert and Crystals a Very Amazing and High 5-Star.

The book has listed and described in depth of the specific crystal stones that have been presented in this book, there is a lot for me to take in as am a beginner and with the stones like the Carnelian Crystals, Fluorite Crystals, Howlite Crystals and a lot more and each with its purpose.

For a large number of years, precious stones have held a consecrated and regarded place among the individuals who look for profound illumination, change, peace, and force. With this book, you're going to get a snappy take a gander at a portion of the more normal gems that you'll discover at any nearby gem shop and what they speak to those hoping to do chakra work, reflection, or simply convey them with them. There are boundless conceivable outcomes with regards to precious stones and the force they give. Give this book a chance to be the initial step on an experience of a lifetime as you investigation and study the concealed truths of the world.

I have read this book one more time. This book is about crystal healing . There are a lot of different ways to utilize them . This book is all about helping people discover the fascinating method of crystal healing. It introduces to chakras and what they are as well as the many benefits that different

crystals can have. This book is aimed specifically at beginners, which means it's written in a way that is easy to grasp and understand. I recommend this book!! I would definitely recommend this book to anyone just starting out, or even to anyone just looking for a different viewpoint. It's a quick but educational read. I enjoyed it. :)

The book goes through crystals healing facts, in depth attributes, programming, cleansing, techniques for healing use. It also has a chapter on uses with basic meditation techniques, which was very helpful. This book has exceeded my expectations so very much!! There's a lot of good information in this book in a very easy to read format. It's very well organized, making it easy to read from beginning to end as well as easy to find specific crystals or uses. This is great for anyone that is new to crystal healing, and those that are well versed in crystal healing. This book has exceeded my expectations so very much!!
