About 18 yrs ago I came across this book, just a short time before I had to undergo Heart Valve replacement. When my Doctor questioned my state of mind/anxiety the night before, I told him my only concern was having a stroke but that if I died on the operating table I wasn't worried because I knew where I was going and what was in front of me. He had the most profound look on his face

and I could almost read his thoughts "maybe I should operate on this guy's head instead of his heart". Do I fear God? No - why should I fear pure Love, Understanding and Mercy? Am I afraid of going to Hell when I die? No, why should I fear someplace that doesn't exist? You've read about Lucifer, Satan, the Devil, Beelzebub, etc and you think they're different names for the same entity but there're not - all different entities. Curious isn't it? It's pleasant to read about a Creator Son of God of the Michael Order who lived a mortal life here as Jesus of Nazareth (profoundly interesting the 'why' of it). In the middle of the book, just tucked away, is a description of the Star of Bethlehem which notes the birth of Jesus as August 21, 7BC. What the book states is that the 'star' was really the conjunction of Saturn and Jupiter on May 29th, September 29th and December 5th. Well, I asked a computer literate friend to check that out for me and look from Cairo, Egypt. Using mapping software called Mystars he checked. His reply? "The conjunctions took place and are viewable at 0200 hours on May 29th, 1800 hours on September 29th and 1300 hours on December 5th. Quite Amazing!" This might cause people to wonder why such a verifiable fact would be just 'tossed in' a tome of 2097 pages.

I purchased the softcover version about 5 months ago and have now read about two thirds of this enormous 2000 page work. This book is simply without parallel. I remember thinking many years ago, 'Why do I have to wait until I die to find out the reasons for such and such...' Well I never did expect to get those questions answered in this life. But then, I hadn't read the Urantia book. This book has managed to appear to assimilate the best from the world religions and philosophies to form an incredibly cohesive cosmic worldview. In fact, the way the entire book holds together in its self consistency, profundity, sublime morality, and sheer original brilliance has convinced me that it must in fact be a divine revelation, as it indeed purports itself to be. Indeed, after reading much of this book, the religions and philosophies of the world appear to be dilutions of the real thing. Expect adequate answers to these questions, and more: Who is God and what is He like? How does God 'interface' with our universe? How was the universe created, and why? How did biological life come into existence? Why is life progressing? What really is the detailed biologic and geologic history of earth? When did man appear, and what is his detailed history? What really makes man unique from other animals? How did the different races and cultures begin? What is involved in 'mind' and 'spirit'? How can God live in us? How does God communicate with us? What are the nature and kinds of celestial intelligences? What really happened in the rebellion of certain celestial intelligences? Why are there so many religions? Why does God allow suffering and injustice? Is there life on other planets? What is earth's ultimate destiny? What is our destiny after death? Who

will survive?
