The Advocate's Homicides (The Advocate Series Book 8)

Synopsis

Attorney Sabre O. Brown is called upon to defend an abused fourteen-year-old boy of murder after a body is discovered in a shallow grave with the word GOOF scrawled across his forehead. Years later when more bodies are unearthed bearing the same GOOF signature, two more abused juveniles are accused of the gruesome slayings. In order to convince a jury of her client's innocence, Sabre must either find a copycat killer; prove the murderer was a trusted friend of the three boys; or realize her worst fear—that her teenage clients carried out their own brand of vigilante justice to the men who abused them.

Customer Reviews

I have been a fan of Teresa Burrell's writing since reading *The Advocate*, her first book in this series, and I have read every one of them leading up to this story. I love the fact that her characters have believable personalities; the situations portrayed are realistic; and the courtroom scenes as they are described (often in great detail) are true to life. Sabre Brown, the protagonist, is a qualified, capable attorney, and some of her cases arise because of her role as a legal advocate for juveniles

within the state's Department of Social Services system. Many of her juvenile clients come from abusive homes who find themselves caught up in the trials and tribulations of being in foster care, generally through no fault of their own as is often the case in real life. This most recent book in the series is true to form in that Sabre is defending a young boy, Tray, who she's been representing in a dependency case. Tray is accused of murdering his drug-addicted mother's former live-in boyfriend who was a pedophile. The boy insists he is innocent, yet there is compelling circumstantial evidence to the contrary (with a nun as an eyewitness no less). This makes Sabre's defense of Tray more complicated even with the help of her co-counsel appointed by the judge. As usual, she calls in her long-time investigator, JP Torn, to aid her in uncovering the facts of the case. There's been intimated sexual tension between JP and Sabre throughout the previous books in this series, although nothing has come of it – until now. JP is an old country boy who spouts JP-isms, adding the element of light-hearted humor in otherwise depressing circumstances. Similar to other books in this series, readers get to go with JP as he follows up on every lead to bolster Sabre's client's case, adding further depth to the story.
