Exile (Star Force Series Book 11)

Synopsis

Lost and cut off from Earth, the crew of the starship Valiant seeks a way home. In the eleventh book of the Star Force series Cody Riggs collides with the overwhelming power of the Ancients. They fly incomprehensible ships and consider humans to be curiosities. Caught between ghosts of the past and demons of the present, Cody is abandoned by everyone. His girl, his crew, and even his ships change sides, exiling him in the cold depths of space. Demonstrating the strength of any Riggs, Cody manages to claw his way back into the game, upsetting the plans of his enemies and his allies alike. The only question is whether or not heâ™ll live long enough to regret it. EXILE is a full length novel of science fiction by bestselling authors B. V. Larson and David VanDyke. The first book telling Cody Riggs' story is titled OUTCAST. If you've never read any of the Star Force novels, SWARM was the beginning of it all.

Customer Reviews

So we're now on our second story with Cody Riggs (Kyle's son). The plethora of aliens continues to expand, a big plus, but the story isn't as exciting as it was in the first 10 books under Kyle. When just B. V. Larson wrote and Mark Boyett narrated the earlier stories, it was a consistent action-packed

roller coaster with a clear struggle/goal they strove for in each book. I wonder if the slump this time is because another author is a major contributor in this book as Larson is still writing consistently excellent stuff in his other series. By the points:-They are trapped/cut off from earth, but that struggle of getting home is background noise at best and I felt it should be more of the focus-Sokolov and his temptress sidekick were a waste of pages that really just enabled better intro of "the new blues" / big bad guys-I like what was done with the raptors-The new communicator was interesting-Cody character is a mere shadow of Kyle Riggs, and his girlfriend is 2D window dressing-This was a big chance for Marvin to shine, I don't feel that he did (I'm a Marvin fan)-The end was a good tease-I like the hints at connection to past & future story arcs (e.g. Cody's first girl getting killed)-Macro cameos kind of left me feeling burned out, they're just not exciting anymore-Machismo couple interactions / love scenes were even more awful than usual. Take them out or have them add to the story. Build a real relationship/bond that's tested, make them erotic, anything, just give them a purpose and some semblance of reality.
