Customer Reviews

This book is good, rich in the Silver Fangs history. It has all the information you'll ever need about Silver Fang Heirarchy, including camps, houses and lodges. It also lists Silver Fang fetishes, rites, gifts and merits & Flaws. This book is not a waste of money for those that want to play a Silver Fang correctly. If you can find it, buy it.

beginning with a comic form short story, The history of the tribe from prehistory to the current decade is then described in a series of letters between tribe scholars. I would have like more detail here, but what's here is good. I would also have like to see more detailed info on tribe protocols, but structure info, and global polical view are good. Apart from the two points mentioned, this is an essential book for any werewolf enthusiast. One of my three must have werewolf books!
