Starwind: A Study Of Space, Time, Deity, And Multilevelate Reality Based On Concepts In The Urantia Book

Synopsis

Starwind is a study of complex universe realities and laws described or implied in the vast reality portrayals of The Urantia Book. Here author Troy R. Bishop presents reality concepts and speculations addressing the Absolutes, time, Deity, space, gravity, dimensionality, and destiny. Included are basic concepts of multilevelate reality, a field developed by Mr. Bishop and introduced in his previous book, The Multilevelate Universe. Starwind is designed to be a simplified companion volume for The Multilevelate Universe, which incorporates a more in-depth, developmental approach.
