Customer Reviews

I love this guide. It's definitely my most used guide. Gives detailed explanations about the game. Even more, provides easy to understand tips. If you are looking for a well thought out guide, this is the guide for you.

This guide got me out of real problem in very easy manner. I was loosing games with my friends and he was getting more ahead of me in the game and was frustrating me. I got this book and got to know various tricks and cheats which turned me into an ace of the game. I was able to beat my friend in this game and I started making real fast progress in the game. I made me very happy. If you want quick shortcuts for this game then you should buy this.

Not worth the money. I would get my money back if I could. It is word for word what you can read on the game's website. Yes I got scammed.
