Clairvoyance (Psychic Awakening Series Book 1)

Synopsis

Would it be helpful if you could gain hidden knowledge about a person, place, thing, event, or concept, not by any of your five physical senses, but with visions and a knowing? • Are you ready to supercharge your intuition? Clairvoyance, takes you on a quest of self-discovery and personal empowerment, helping you unlock this potent ESP ability in your life. It includes riveting stories from Embrosewynâ™s six decades of psychic and paranormal adventures, plus fascinating accounts of others as they discovered and cultivated their supernatural abilities. Clearly written, step-by-step practice exercises will help you to expand and benefit from your own psychic and clairvoyant abilities. This can make a HUGE improvement in your relationships, career and creativity. As Embrosewyn has proven from over twenty years helping thousands of students to find and develop their psychic and paranormal abilities, EVERYONE, has one or more supernatural gifts. Clairvoyance will help you discover and unleash yours! If you are interested in helping yourself to achieve more happiness, better health, greater knowledge, increased wealth and a deeper spirituality, unlocking your power of clairvoyance can be the key. Hidden knowledge revealed becomes paths unseen unveiled. Unleashing your psychic gifts does more than just give you advantage in life challenges. It is a safe, ethical, even spiritual and essential part of you that makes you whole, once you accept that you have these special psychic abilities and begin to use them. Like to know more? Customer Reviews

The book starts off on a pretty exciting note as the author starts to relate his experiences with Clairvoyance and ESP. This is a very good overview of Clairvoyance, especially for those just getting started with understanding the field, as the writing is very clear and easy to understand. There are several interesting links in there (such as a test to show your abilities in Clairvoyance, which I thought was pretty cool, and links to other recommended books), and this book also expands on how you can harness your Clairvoyant abilities through exercises and the author's own helpful tips. Overall, I found this to be an informative read, and I'm excited to see that there is more to come!

This is a book that serves as a really effective guide towards developing and expanding psychic abilities. I loved the wealth of information found here and the accounts of people who found their supernatural abilities was enlightening. A really great resource, highly recommended.

Clairvoyance, honestly I believe everyone has a little of it in one way or another. Sometimes it can be mistaken as a "gut" feeling when it is this gift. There are others who close off to it or the possibility because they don't believe in such things. I believe in it and this book is a guide to it by helping you understand it better. For those who don't know what Clairvoyance is, check this book out and learn. Even if you don't believe it, read it anyway. I learned quite a bit more than I had originally knew about it. Check it out!

I liked that the information was put in a understandable type of way for everyone. Although this could of been longer for my tastes but was helpful enough with the authors own experienced point of view.

I'm going to start off by saying there are 54 numbered pages in this book, but only 36 have "full page" text, and the text itself is larger than normal if you ask me. There are also 23 extra pages at the end of the book citing multiple REVIEWS of the other books this author has written, and the

photos in this book are black and white. Needless to say, I finished this entire book within an hour of opening it. I will say it was helpful in terms of some exercises, but I am overall displeased with my purchase. This book is more like an article or report an educated student wrote about clairvoyance. I really wanted to like this book, but I felt like I already knew a lot of the information in it, which made it less exciting for me to read, and I also felt like a lot of information was repeated in different ways, making the book seem redundant. This book was 50% author experiences, and the rest of the book included exercise instructions with little to no information on how exactly it helps strengthen your clairvoyance or intuition. I felt like I could have read this online somewhere for free. I would give this kind of book to a high-level reader in elementary school. Overall this book was a bust for me and definitely not worth \$10.

This is what could be considered to be a beginner book on clairvoyance, or what is more familiarly known as esp. Gives the basics of what it is exactly and there are also many links to purchase other books. Very short and frankly I didn't take anything from it but that's just me.
