Customer Reviews

This borders on "good ideas" and "must have" for your WoD or W:tF campaign. Lots of good flavour and new abilities for your Werewolves. Nice solid supplement that is worth picking up if you run Werewolves in your World of Darkness games. People have rated this poorly simply because it was hung up for months delaying release - How clueless.

This book is the last of the game books published for the Werewolf the Forsaken (WTF) game line. It details new Lodges, Rituals, Gifts and expansions for the role playing game. For the completest (which I am) this is the final book to the series of game books and must have. Afterword by creator Ethan Skemp.

wow! What an excellent sourcebook. It's far more than I thought it would be, and I would

recommend it to anyone. Wendig delivered exactly what was promised.
