Using Government Information Sources: Electronic And Print Third Edition

Synopsis

In the six years since the second edition of the bestselling Oryx information guide, *Using Government Information Sources*, was published, a lot has changed in the searching process. Much government information is now found exclusively on the Internet and there are many more print resources available. The new third edition, by Jean L. Sears and Marlyn K. Moody, is the extensively revised edition of this popular and useful title. Designed for beginning as well as experienced researchers, this resource will guide users to the best government information sources both print and electronic. Each chapter is grouped into four search strategy categories: the subject search, the agency search, the statistical search, and special techniques. New to this edition is a chapter on Housing and Construction Statistics.
