## Customer Reviews

This book allows for sameness as well as differences, making it possible for people of all ages to remember that uniquenesses are common from person to person. An approach like the ones suggested in the book, will in itself explain the racial and physical differences which are destroying the nation. Acceptance of the fact that we are all the same and yet different is a concept that could be taught to all adults who harbor prejudices around the world. This book is said to be developed for ages 3-8, but the concepts as presented are to be lauded for their simplicity and authentic reality. The activities are well thought out, and this book is a blessing to the educator, as well as, the child who is fortunate enough to have a benefactor who truly cares.

The brightly colored illustrations and narrative about understanding and friendship are a wonderful combination for young children. It is a book that should appeal to young children of various backgrounds and ethnicities. It would be a great buy for parents and for the classroom.

So often "special kids" are shown as more special than other kids. This book shows all kids under

one spotlight. Very well done, author Cindy Gainer, and Cindy's illustrations are bright and easy to enjoy.
